0:07 – 0:16 I don't get it, I purchased extra tills for my café, hired more staff, yet still you have much more sales than I do...how come?

0:16 – 0:18 Well, take a look at the process

0:21 – 0:39 I implemented mobile order and pay after seeing it at a pub a few weeks ago, and at a stadium, and at other places that had queues before.

It was so simple to launch, that we started using it the next day after I learnt about the service....no tech hassle, or big upfront costs.

Customers love it and have started coming back more often

0:40 – 0:50 Nice...wow....so simple. I just placed an order at your café in just a few clicks.

I need to get this service in my café now. Who did you order it from?
