

COMMERCIAL BANKING

DYNAMIC CURRENCY CONVERSION

Let overseas travellers pay in their own currency and make commission on conversion

DCC is available for customers with foreign issued Visa® or MasterCard® cards. It lets them pay in their card currency, instead of local currency at the point of sale.

They enjoy the peace of mind that comes from paying in the currency they understand, while you benefit from the currency exchange fee normally added to such transactions by Visa, MasterCard and the Issuing Bank. Available on standalone terminals, integrated solutions and e-commerce. We have two different providers of DCC, each with a unique offering, so whatever your needs, we're here to help.

Benefits for you

- **Profitability** – guaranteed commission on every converted transaction
- **Added value** – offer international customers an innovative service appreciated worldwide
- **Simplicity** – the process is seamlessly integrated into your payment system, enhancing your terminal operations
- **Monitoring** – real-time online management information reporting for all transactions.

Benefits for your customers

- **Efficiency** – instant conversion to a familiar currency
- **Comfort** – no need to wait for a statement to see how much they've spent
- **Security** – exchange rate is guaranteed at the time of transaction
- **Service** – improved customer experience.
