

# CLOVER™, IT'S MORE THAN JUST A PAYMENT SYSTEM

## VIDEO TRANSCRIPT - ARUN VETERINARY GROUP

---

Time Code	Transcript
00:04 - 00:10	Prior to having the Clover machine installed, we had the old style terminals.
00:10 - 00:16	We have recently rebranded Arun Veterinary Group and look to blend traditional veterinary practice with modern style.
00:18 - 00:22	The Clover machine is brilliant because it allows us to cater for all our clients.
00:22 - 00:26	If the client is security conscious and wants to hide their PIN, we can enable that feature.
00:27 - 00:31	We can also add a pad to the machine for anybody that's visually impaired.
00:31 - 00:35	All those parts are nice and easy to store and easy to add on if you need that feature.
00:39 - 00:43	Being able to use the machine has been great, because the client hasn't got to focus on the monetary side, they can focus on the animal.
00:43 - 00:48	But with Clover it's been nice because it's just a seamless transaction that they've been able to have.
